SUMMARY

Management Information Systems student at the University of Georgia with emphasis in Data Analytics and Information Security, and direct consulting experience advising clients on identity access management and M&A integration risk. Combines technical fluency in Python, SQL, and cybersecurity tools with proven client communication and stakeholder management skills developed through Big Four-style consulting and cross-functional team leadership.

EDUCATION

University of Georgia, Terry College of Business, Athens, GA May 2027
Major: Bachelor of Business Administration, Management Information Systems
Minor: Minor in Law, Ethics, and Philosophy
Area of Emphasis in Information Security

WORK EXPERIENCE

Technology Consulting Intern - Security & Privacy, Protiviti, *Atlanta, GA* May 2026 - June 2026

- Executed Identity and Access Management (IAM) testing for a client engagement, evaluating provisioning and de-provisioning controls against compliance requirements
- Contributed to a Merger & Acquisition due diligence engagement, supporting risk assessment and integration planning workstreams alongside senior consultants
- Managed weekly status reporting and engagement budget tracking, helping the team monitor project financials and stay on schedule
- Built and delivered client-ready presentations that translated complex IAM and security concepts into clear, actionable business recommendations
- Earned the SailPoint Identity Security Leader certification, deepening technical expertise in enterprise IAM principles

Web Development Intern, UGA, *Athens, GA* April 2025 - May 2026

- Led end-to-end development of the Children, Families, & Policy Lab website for the University of Georgia, aligning UI/UX design with university branding and accessibility standards
- Partnered with the lab director to define site structure, page layout, and design strategy in WordPress and HTML/CSS
- Integrated SEO metadata and a newsletter sign-up workflow that increased site discoverability and user engagement
- Led cross-browser testing and debugging to ensure consistent functionality across devices

Extern, Cisco, *Athens, GA*June 2022 - August 2022

- Designed and presented network safety and efficiency improvements for Marta's rail transit system, placing first out of all teams in the Capstone Competition
- Led a Capstone project that tracked buses and trains across MARTA using LoRaWAN technology paired with Meraki network infrastructure
- Achieved IoT certification from Talent Bridge, validating hands-on knowledge of connected device systems

LEADERSHIP

Executive Board Member, Society of Cyber Security, *Athens, GA* June 2025 - Present

- Developed a phishing detection prototype used to teach club members how to identify phishing attempts via URL and message analysis
- Directed cybersecurity presentations and interactive demonstrations, helping participants practice online safety
- Organized an educational cybersecurity exercise demonstrating the importance of strong passwords, multi-factor authentication, and account security

SKILLS

Technical Skills: Python, SQL, Data Management, Internet of Things, Cybersecurity, Ethical Hacking, Microsoft Applications, and SailPoint Identity Security Leader

Interpersonal Skills: Critical thinking, Attention to detail, Conflict management, Communication, and Time management
